SUMMARY

Frontend Engineer with strong expertise in React.js, TypeScript, and modern web application architecture, experienced in building scalable, high-performance, and SEO-friendly applications. Proficient in identifying and resolving performance bottlenecks related to JavaScript execution, layout shifts, and interactivity using tools like Lighthouse and Chrome DevTools, with a track record of measurable Core Web Vitals improvements (LCP, CLS, INP). Skilled in building accessible (WCAG-compliant), component-driven UIs and collaborating with cross-functional teams in Agile environments. Experienced with AI-assisted development workflows (Cursor, Claude Code, GitHub Copilot) to accelerate delivery and elevate code quality. Familiar with headless CMS architectures, API-driven frontend integrations, and expanding into full-stack development with Node.js, Express.js, and MongoDB.

SKILLS

Frontend	React.js, Next.js (SSR, SSG, ISR, App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Redux Toolkit, Zustand, Responsive Design, Cross-Browser Compatibility, Micro Frontend.
Performance	LCP, CLS, INP, Code Splitting, Lazy Loading, Bundle Optimization, Memoization, Virtualization, Lighthouse, Chrome DevTools.
Data Fetching	REST APIs, GraphQL (Apollo Client), Axios, React Query (TanStack Query), API Caching, CRUD Operations.
Testing & Quality	Jest, React Testing Library, ESLint, Prettier, Unit Testing, Component Testing.
AI-Assisted Dev	Cursor, Claude Code, GitHub Copilot, Antigravity, Prompt Engineering for code generation, review & debugging.
Tools & Platforms	Git, GitHub, Bitbucket, Vite, Figma, Postman, Jira, CMS Integration, Vercel, Netlify, Supabase, Railway.
Backend	Node.js, Express.js, MongoDB (<i>Basics</i>)

EXPERIENCE

Frontend Developer at Wowlabz

Remote, Bengaluru

Feb 2024 – Present

- Built and maintained scalable frontend applications using **React.js**, **TypeScript**, **Redux Toolkit**, and **React Query**, optimizing state management and API handling for improved rendering performance and data load efficiency.
- Refactored legacy codebases into modular, reusable component libraries, achieving a **35% reduction in page load time** through bundle optimization, code splitting, lazy loading, and strategic caching.
- Integrated **AI-assisted development tools** — Cursor, GitHub Copilot, and Claude Code — into the daily engineering workflow to accelerate feature delivery, improve code reviews, and maintain consistent quality.
- Delivered fully responsive, **WCAG-compliant** interfaces in cross-functional Agile teams alongside product, backend, and QA, participating in pair programming, sprint planning, and code reviews.

Chat Associate at TTEC India Customer Solutions Pvt. Ltd.

Ahmedabad, Gujarat

Jun 2019 – Aug 2022

- Maintained a **91% resolution rate** across chat and email channels; surfaced recurring user pain points and collaborated cross-functionally to drive process improvements that measurably enhanced customer experience.

PROJECTS

University Management System — ERP + LMS Platform | React · TypeScript · Redux Toolkit · React Query

- Engineered a scalable ERP + LMS platform serving **5,000+ concurrent users**, automating administrative workflows and cutting manual effort by **70%** through integrated scheduling and request management.
- Architected a chunk-based file upload system and frontend performance enhancements, reducing **upload time by 37%** and measurably improving overall system responsiveness and perceived load speed.

Clinical Trial Management Platform — React · TypeScript · GraphQL (Apollo Client) · Vite

- Built a high-performance, scalable frontend integrating **GraphQL (Apollo Client) APIs** with TanStack Query to handle large clinical datasets with optimistic updates and intelligent cache invalidation.
- Enhanced global UX and reliability via schema-based form validation, **multi-language localization (i18next)**, and WCAG-compliant accessible component design.

EDUCATION & TRAINING

Full-Stack Web Development | Acciojob | Remote

Oct 2022 – Dec 2023

Bachelor of Engineering | P. R. Pote College of Engineering & Management | Amravati, Maharashtra

July 2015 – June 2019
